

Homeless Shelter of the Year

Highway House

Based in Tottenham, Highway House can accommodate up to 45 homeless men at a time. Since opening its doors in 2009, it has provided almost 1000 men from over 60 countries with shelter, food, counselling and companionship. Highway House now also runs a day centre that provides hot meals and showers for the homeless, for those who live in isolation, and those at risk of homelessness. The judges are impressed with the level of care, compassion and attention the shelter gives to each of its visitors to help boost their independence, regain their confidence and rebuild their lives.
